Graduate Retreat
Residential Retreat

2007 Website Program Description

The *Graduate Retreat* is an intensive workshop that offers graduates of the *Gateway Voyage*® (and other on-campus programs) the opportunity to reacquaint themselves with the higher focus level Hemi-Sync® exercises not available for home use.
Prerequisite for this program: Gateway Voyage

TMI Graduate Retreats are held at Roberts Mountain Retreat. Nestled on a mountainside at The Monroe Institute, the warmth and charm of Bob and Nancy Monroe's former home offers a perfect setting to do our inner work.

It's a weekend of listening to high focus level exercises. We spend time in 15, 21, and take a sojourn into 27. This weekend can be used as a personal retreat.
